

# BLUESTONE COBBLES (TUMBLED)

With their gently tumbled edges and nuanced charcoal hues, Bluestone cobbles evoke a refined, timeworn elegance. The natural cat's paw markings and tonal shifts lend a layered, artisanal quality, creating a surface that feels both grounded and expressive. When installed at scale, they compose a richly textured canvas that elevates courtyards, driveways, and garden paths with quiet sophistication.

## FINISH

SPLIT FACE  
TUMBLED
